

Adhiraj Mishra

AIML Engineer

Hno.16 Vikas Nagar, Yamuna Nagar, Haryana | ✉ adhirajmishra99@gmail.com | 🔗 [linkedin.com/in/adhiraj-mishra502](https://www.linkedin.com/in/adhiraj-mishra502)

Career Objective

Passionate B-Tech CSE (AIML) student deeply into AI, machine learning, and web development. Built and deployed real-time ML models along with responsive, production-ready web applications. Driven by problem-solving, exploring new technologies, and creating practical solutions that actually matter.

Education

B-TECH in Computer Science & Engineering (AIML)

2023 - 2027

Sushant University, Gurugram

Projects

Harmful Weapons (Custom) Detection System – YOLOv3

December|2025

- Developed a real-time weapon detection system to identify guns, rifles, scissors, and knives from images and video streams.
- Utilized a pre-trained YOLOv3 model and customized it for harmful weapon detection.
- Performed dataset pre-processing and annotation formatting to improve detection accuracy.
- Implemented bounding boxes with confidence scores for detected objects.
- Integrated the model with a live camera feed for real-world surveillance applications.

Ping-Pong Game (Multiplayer)

July-August|2024

- Built a real-time multiplayer Ping-Pong game using Web Sockets.
- Implemented live game state synchronization between players.
- Developed core game logic including ball physics, paddle movement, and scoring system.
- Designed the frontend using HTML, Tailwind CSS, and JavaScript.
- Currently enhancing UI/UX for smoother gameplay and improved visuals.

Frontend Development – VKRE Health Website

June-August|2024

- Developed a responsive healthcare website using HTML, Tailwind CSS, and JavaScript.
- Designed clean, structured, and reusable UI components for better maintainability.
- Implemented fully responsive layouts to ensure compatibility across mobile, tablet, and desktop devices.
- Optimized performance, styling, and loading speed to enhance user experience.
- Successfully deployed the website to production on its live domain: <https://vkrehealth-in.vercel.app>

Medical Chatbot --

Skills

Technical Skill

Programming: Python

Libraries/Frameworks: Scikit-learn, Numpy, Pandas, Reactjs, Nodejs, Matplotlib, Pytorch, Tailwind CSS

Web Development/Databases: HTML, CSS, Javascript, MongoDB, MySQL

Tools: Git & GitHub, Jupyter, VSCode, PowerBI

Soft Skill

Teamwork, Problem-solving, Responsibility, Adaptability, Time Management

Certificates

Attended the 5 day's boot camp of python organized by soarX

June19 to June23, 2024

Languages

Hindi, English, Panjabi
